**Product:** Blackboard Learn

### Information:

Blackboard is pleased to announce the release of Genius 1.10 as part of our Blackboard Registration & Management solution.

### What is it?

Blackboard Registration & Management is a web-based management system and registration portal that offers customers fully integrated learner registration, enrollment management, e-commerce capabilities, a manager dashboard and enterprise reporting tools that each client can customize to meet their needs.

The integration with our partner, Genius, provides Blackboard's clients a complete training management solution:

- Allows corporations, government agencies, associations and other professional organizations to manage the full lifecycle of learning
- Gives learners more control as they navigate their training with individualized learning paths
- Administrators and Trainers can easily see their student's progress towards certifications and view each learner's full course history
- Training environment can also be used as a revenue source through integrated e-commerce capabilities

### Details:

The Genius 1.10 Release for Blackboard Registration & Management includes:

- New Learner Dashboard
- New Manager Dashboard
- Localized for Spanish and Brazilian Portuguese
- Multilevel Affiliation Hierarchy
- Ability to Measuring Training in Days vs. Weeks
- Updated User Interface Descriptors
- Enhancements to CSV Import and Bulk Transactions
- Workflow Enhancements
- Security Updates
- Blackboard REST API Support

View the highlights for the Genius 1.10 release below.

**Client Recommendations:**

While most clients are eligible to upgrade to the new Manager & Learner Dashboard, some customized solutions may not be eligible to automatically upgrade to everything in this latest release. Therefore, clients will need to work with their Blackboard account manager to review their upgrade options. For those eligible to receive the new Manager and Learner Dashboard, the client can expect to see the upgrade completed within 5-7 business days once a case is opened on Behind the Blackboard.
