

Blackboard

Grade Center does not Match the Attendance Tool Total Points Value

Date Published: Mar 05,2019 **Category:** Planned_First_Fix_Release:Functioning_as_Designed; Product:Grade_Center_Learn; Version:SaaS **Article No.:** 000060907

Product: Blackboard Learn

Release: SaaS

Service Pack(s): SaaS

Description: When taking attendance with 30 meetings worth 135 points, marking the Student absent 28 times and 2 present should total 9 (which is shown correctly in Attendance tool) but shows 8.99999 in the Grade Center Attendance Column instead.

Steps to Replicate:

1. Log in as System Admin
2. Go to System Admin > Courses > Create Course
3. Quick Enroll and Add a Student User to the Course
4. Go to Course Tools > Attendance > Add Attendance > Accept Default Schema
5. Click to show Overall > Create 4 additional Sessions (total of 5)
6. Mark Student User Present in One session and Absent in the Second Session

Observed Behavior:

Attendance Tool shows 50%, 50 points

1. Go to Full Grade Center > View Attendance Grade, shows 50.00 points
2. Add 32 columns to Overall Attendance (to match client's scenario)
3. Adjust points for the column to 135
4. Mark Student User Present 2 times and Absent 28 times

Observed Behavior:

Attendance shows a score of 9, Grade Center shows a score is 8.99999

Expected Behavior:

Attendance and Grade Center to show the same score of 9

Target Release: Functioning as Designed

Patch Available: No
