Ally Support to Moodle 4.1

Date Published: Aug 10,2023 **Category:** Product:Ally_BU; Version:Ally_BU **Article No.:** 000077827

Information:

Ally now supports Moodle version 4.1 using Ally for Moodle plugins. The availability of the plugins is related to the type of environment you have. Please find further details below:

Ally plugin for 4.1 Moodle core self-hosted environments

The plugins for version 4.1 are available on the Moodle page:

https://moodle.org/plugins/tool_ally

https://moodle.org/plugins/report_allylti

https://moodle.org/plugins/filter_ally

Documentation for the plugins' configuration is available in the [Ally help documentation for Moodle](#).

Ally plugin for 4.1 OpenLMS environments

OpenLMS will update their environments to the 4.1 version in an upcoming maintenance window. [See the OpenLMS EDU release schedule](#). The Ally plugin for the 4.1 version will be available after the maintenance windows are executed and should be available in the [OpenLMS plugin matrix](#).

Please contact the Ally team if you have any questions.
