Details: On Friday, June 8, 2018, Blackboard will be performing infrastructure maintenance at our VA2 data center. While we anticipate no interruption in service as a result of the work, we cannot entirely rule out periods of intermittent connectivity during this maintenance window. We will make all efforts to keep any service disruption within the window to a minimum, but Collaborate clients hosted at our VA2 (Virginia hosted data center) should be aware that intermittent connectivity is possible.
