Description: When re-grading an Assignment using Rubrics, the grade does not change to the correct one.

Steps to Replicate:

1. Log into Blackboard Learn as a System Administrator
2. Create and access a Course
3. Create an Assignment worth 10 points, and add a Rubric
4. Use *Student Preview* to submit the Assignment
5. Exit Preview (keep data) and grade the Assignment
6. Regrade the Assignment using the Rubric

Expected Behavior:

The grade value remains

Observed Behavior:

The grade is changed
