Issue Description: If the User attempts to rename a content link in the Course menu, the following error occurs: Unable to generate id. The provided key value is invalid (datatype: "blackboard.data.navigation.CourseToc", value: "undefined").

Steps to Replicate:

1. Log into Blackboard Learn as an Instructor
2. Browse to a Course
3. Create a content area with any name
4. Click the chevron next to content area, select **Rename Link**
5. Enter a new name
6. **Submit**

Expected Behavior:

The content area can be renamed successfully, without error.

Observed Behavior:

The content area cannot be renamed, and the following error occurs:

Unable to generate id. The provided key value is invalid (datatype: "blackboard.data.navigation.CourseToc", value: "undefined").
