Product: Blackboard Learn

Bulletin/Advisory Information: Under Blackboard's licensing agreement with Oracle, Blackboard distributes patch updates of Java JDK for self-hosted Blackboard Learn clients. These can be used to patch Learn environments only, and shouldn't be used for other institutional environments under the terms of the agreement.

JDK 8 Update 221 (1.8.0.221) has been posted on [Behind the Blackboard](#).

For clients using LDAP authentication, please review [article #50467](#) prior to applying this patch. Java updates should always be tested in a non-production environment prior to deploying in production.
