Upcoming Workshop: SaaS Planning

Date Published: Nov 19,2020 **Category:** Product:Learn_BU; Version:Learn_BU **Article No.:** 000075023

Product: Blackboard Learn

Information:

Enhanced quality, zero downtime updates, and easier change management are just a few of the benefits of migrating to SaaS. That's why we're excited to offer a workshop that will provide you with valuable information and best practices to ensure your success.

Join our penultimate SaaS Planning Workshop for 2020 to plan ahead for a seamless transition from managed-hosted/self-hosted to SaaS. The session will provide you with step-by-step guidance, as well as the resources you need to plan a successful migration. Our experts will cover the essentials of what you need to know to prepare your Building Blocks and integrations for SaaS deployment, allowing you to walk away from this program with the information and answers you need to plan your move to SaaS deployment. If you have a target go-live date, please let us know it here:

- <https://go.blackboard.com/Move-to-SaaS> - you will still need to register for the workshop to attend.

Next Session:

- November 23, 2020 at 11AM – 12:30PM ET
